Dear Valued Member

## MOTO HEALTH CARE 2026 BENEFITS AND CONTRIBUTIONS

It is my pleasure to present to you, our valued members, the 2026 benefit enhancements and contribution adjustments. This year, our Board of Trustees, management and actuaries have come together to ensure the best possible healthcare at the most cost-effective prices.

I am delighted to announce that, for 2026, Moto Health Care has secured an **overall weighted average contribution increase of only 7.4%**. In today's challenging economy, this is an excellent achievement. But what makes it even more exciting is that the Scheme has introduced **benefit increases ranging from the consumer price index (CPI) to an outstanding 30.7%**.

### Contribution increase percentages per option:

Option	2026
Essential	5.5%
Custom	5.9%
Hospicare Network	7.9%
Hospicare	7.9%
Classic Network	7.9%
Classic	7.9%
Optimum	8.5%
<b>Overall fund</b>	<b>7.4%</b>

These are not just numbers – they are a commitment towards ensuring that your contributions go further and that your healthcare cover gives you peace of mind that your families will receive the best healthcare when it matters most.

Moto Health Care is unique. We are built by the motor industry, for the motor industry. Our Board of Trustees are all from the industry and are members of Moto Health Care. They understand the pressures of the workshop floor, the showroom and the office.

2026 will not be just another year. It will be a year that demonstrates what we can achieve when members, employers, trustees and management work together with a single purpose: to protect and enhance the wellbeing of our people while delivering exceptional value.
